

Dear Parents and Educators,

These lesson plans are designed as follow up activities based on a Christmas theme. Feel free to expand on the lessons, and be creative! Remember, the point of doing a lesson is to convey information in a way that will help your children/students understand and retain the material presented.

## Lesson Plans

### Christmas

#### Lesson #1

**Objective:** To talk about what we see during the Christmas season.

**Materials:** The Christmas book, fliers from stores, old Christmas cards, photos from home during Christmas.

**Procedure:** Have your students find and label things that appear during the Christmas season. Make sure to point out the difference between what you do and don't see during the season.

**Follow up:** Have students talk about unique things that they have in their homes during Christmas.

#### Lesson #2

**Objective:** Making a word web or collage.

**Materials:** Fliers from stores, old Christmas cards, photos from home during Christmas, construction paper, scissors, & glue.

**Procedure:** Have your students find, cut and past Christmas relate pictures into a word web or collage.

**Follow up:** Have students talk about unique things that they have in their homes during Christmas.

#### Lesson #3

**Objective:** Diverse foods for different seasons.

**Materials:** The Christmas book, fliers from stores, old Christmas cards, photos from home during Christmas.

**Procedure:** Have your students talk about what things people eat during the Christmas season that is different than the rest of the year. What are some special foods they look forward to in their homes?

**Follow up:** Have students bring in special holiday recipes that are special to their families.
